# SYNTRX'26

WHERE INNOVATION BEGINS

## INTER & INTRA SCHOOL COMPETITIONS

### Common Rules and Regulations

- All competitors must register on or before the 9<sup>th</sup> September 2026.
- All winners of the competitions must be present for the awarding ceremony scheduled to be held on the 21<sup>st</sup> September 2026 at the innovation tower auditorium.
- For registrations:
- For any further information, please contact:
  - Ms.Lakshmi de Silva (TIC) - +94 77 958 1006
  - Harini Gamage (President) - +94 77 700 1282
  - Jethmi Hettiarachchi - +94 77 155 0792  
(Competitions Coordinator)

**SCAN TO REGISTER**

# PHYSICAL COMPETITIONS

## 1) EXHIBITION (GROUP EVENT) - 21<sup>st</sup> SEPTEMBER

- The Robotics Exhibition showcases innovative robotic creations and automation projects developed by students. It provides a platform to demonstrate creativity, engineering skills, and the practical applications of robotics and emerging technologies.
- **Rules and Regulations:**
  1. One team must consists of **2-4 members. ( min 2, max 4 )**
  2. Students aged **11 - 19** can participate in the competition.
  3. The Robotics Exhibition **will be held during the morning session of the IT Day.**
  4. **A project proposal must be submitted together with the registration form.**
  5. Projects must be designed, developed, and presented by the participating students.
  6. Participants must prepare a clear explanation of their robotic project, including its purpose, design, and functionality.
  7. All robots and equipment must be safe, properly assembled, and suitable for public demonstration.
  8. Teams must bring and manage their own required components, tools, and equipment.
  9. Projects must be arranged neatly within the allocated exhibition space before the event begins.
  10. Participants should interact with visitors and judges by explaining their innovations effectively.
  11. Evaluation will be based on creativity, innovation, technical knowledge, functionality, and presentation skills.
  12. Any unsafe practices or damage to equipment will not be tolerated.
  13. **The decisions of the judges and organizing committee will be final and binding.**
  14. **More information will be provided after the registration.**

# PHYSICAL COMPETITIONS

## 2) RACING CAR COMPETITION (GROUP EVENT) - 13<sup>th</sup> SEPTEMBER

- The Build Your Own Racing Car & Race Competition is a hands-on STEM event where participants design, build, and race their own model cars. The competition promotes creativity, engineering skills, teamwork, and innovation in an exciting and competitive environment.

- **Rules and Regulations:**

1. Only two teams from a school is allowed, each consisting of **2-5 members. ( min 2, max 5 )**
2. Students aged **11 - 19** can participate in the competition.
3. All racing cars must be designed, built, and assembled by the participating team.
4. Car Specifications:
  - **Maximum Length: 20 cm**
  - **Maximum Width: 15 cm**
5. The car must be powered only by electric motors and rechargeable batteries. Any hazardous power sources are strictly prohibited.
6. Participants may use suitable materials, motors, wheels, and electronic components while ensuring the car meets the given specifications.
7. All cars must undergo a technical inspection before the competition.
8. Cars with unsafe designs, exposed wires, sharp edges, or loose components will not be allowed to participate.
9. The same car submitted for inspection must be used throughout the competition.
10. Repairs and adjustments are allowed only during the time periods approved by the organizers.
11. Drivers must operate their vehicles only from the designated control area.
12. Intentional collisions, blocking, or damaging another participant's car will result in penalties or disqualification.
13. Teams must report to the race area at least 15 minutes before their scheduled race time.
14. Failure to follow competition rules or instructions from officials may lead to disqualification.
15. The organizers reserve the right to modify schedules, restart races, or take necessary decisions regarding safety and fairness.
16. The decisions of the judges and organizing committee will be final and binding.
17. More information will be provided after the registration.

# PHYSICAL COMPETITIONS

## 3) HACKATHON (GROUP EVENT) - 15<sup>TH</sup> SEPTEMBER

- The Hackathon Competition is a coding challenge where participants use technology, creativity, and problem-solving skills to develop innovative solutions for real-world problems.
- **Rules and Regulations:**
  1. Only two teams from a school is allowed, each consisting of **2-4 members**. ( min 2, max 4 )
  2. Students aged **11 - 19** can participate in the competition.
  3. The competition themes are as below :
    - **Artificial Intelligence & Machine Learning** - Develop smart solutions using AI technologies to automate tasks, analyze information, and solve real-world problems.
    - **Cybersecurity & Digital Safety** - Create innovative solutions to protect digital information, improve online safety, and address cybersecurity challenges.
    - **Smart Education** - Design technology-based solutions that improve learning experiences, accessibility, and educational processes.
    - **Environmental Sustainability** - Develop creative solutions using technology to address environmental challenges and promote a sustainable future.
  4. On the competition day, **themes will be shuffled and assigned to perform**.
  5. Participants must develop a creative technological solution addressing a problem related to their selected theme during the allocated competition period.
  6. Teams **must bring their own laptops, chargers, software tools, and any other required materials needed** for developing their projects.
  7. Participants may use suitable programming languages, software tools, frameworks, and technologies to implement their solutions.
  8. Each team must submit their final project and present their solution to the judging panel within the given time limit.
  9. The presentation should include the problem identified, proposed solution, development process, and key features of the project.
  10. Internet resources may be used for reference and learning purposes, but plagiarism is strictly prohibited.
  11. Any unfair practices, misconduct, or violation of the rules may result in disqualification.
  12. The decisions of the judges and organizing committee will be final and binding.
  13. More information will be provided after the registration.

# PHYSICAL COMPETITIONS

## 4) CAPTURE THE FLAG (GROUP EVENT) - 15<sup>TH</sup> SEPTEMBER

- The Capture The Flag (CTF) Competition is a cybersecurity challenge where participants solve technical puzzles to find hidden flags while testing their coding, logical thinking, and problem-solving skills.
- **Rules and Regulations:**
  1. Only two teams from a school is allowed, each consisting of **2-4 members. ( min 2, max 4 )**
  2. Students aged **11 - 19** can participate in the competition.
  3. Participants **must bring their own laptops** and required accessories for the competition.
  4. Teams must solve a series of cybersecurity challenges to identify hidden flags and earn points.
  5. Sharing flags, answers, or solutions with other teams is strictly prohibited.
  6. Participants must only use authorized tools, resources, and methods during the competition.
  7. Any attempt to attack, damage, or disrupt the competition platform or systems will lead to immediate disqualification.
  8. Teams must complete the given challenges within the allocated time period.
  9. Participants must maintain fair play and follow the instructions given by the organizers and judges.
  10. The team with the highest score at the end of the competition will be declared the winner.
  11. The decisions of the judges and organizing committee will be final and binding.
  12. More information will be provided after the registration.

# PHYSICAL COMPETITIONS

## 5) QUIZ COMPETITION (GROUP EVENT) - 15<sup>TH</sup> SEPTEMBER

- The Quiz Competition is an exciting knowledge-based challenge that tests participants' understanding, quick thinking, and problem-solving abilities across various fields. It encourages learning, teamwork, and healthy competition among participants.

### • Rules and Regulations:

1. Only two teams from a school is allowed, each consisting of **2-5 members. ( min 2, max 5 )**
2. Students aged **15 - 19** can participate in the competition.
3. The quiz will consist of questions related to **Robotics, Information and Communication Technology (ICT), programming, electronics, and emerging technologies.**
4. The competition will be conducted in multiple rounds as decided by the organizers.
5. Teams must submit their answers within the given time limit for each question.
6. Use of electronic devices, internet access, or external assistance during the competition is strictly prohibited.
7. The teams obtaining the **highest marks in the preliminary rounds will be selected to compete in the final round on 21<sup>st</sup> September at the ICT Day event.**
8. Participants must follow the instructions of the quiz master and maintain proper discipline throughout the competition.
9. Any unfair practices or misconduct will result in disqualification.
10. In case of a tie, a tie-breaker round will be conducted.
11. The decisions of the quiz master, judges, and organizing committee will be final and binding.
12. More information will be provided after the registration.

# ONLINE COMPETITIONS

## 6) VIDEO EDITING - (INDIVIDUAL EVENT)

- The Video Editing Competition is a creative challenge where participants showcase their storytelling, technical skills, and imagination by producing engaging video content. It encourages creativity, digital skills, and effective use of editing techniques.
- **Rules and Regulations:**
  1. Students aged **11 - 19** can participate in the competition.
  2. The theme of the competition is **"A World Without Technology."**
  3. The final video must be submitted in **MP4 format**.
  4. The video file and the zip folder name must include the **name and school of the participant**.
  5. The use of AI-generated content or AI tools is strictly prohibited.
  6. All submitted content must be original and created by the participant. Use of copied content or unedited pre-made videos is strictly prohibited.
  7. Participants **must submit the final project file, used videos, media files, and all other required resources**.
  8. A **PDF document containing the concept explanation and three screenshots showing the working process must be included with the submission**.
  9. **All required materials must be compressed into a single ZIP folder before submission.**
  10. **The deadline for submission is 16th September 2026.**
  11. The ZIP folder must be sent to **roboticsclubsuathavidyalaya@gmail.com** before the deadline.
  12. The competition will be judged based on creativity, storytelling, editing techniques, originality, and overall presentation.
  13. Any plagiarism, inappropriate content, or violation of the rules will result in **disqualification**.
  14. **The decisions of the judges and organizing committee will be final and binding.**
  15. **More information will be provided after the registration.**

# ONLINE COMPETITIONS

## 7) WEB DESIGNING - (INDIVIDUAL EVENT)

- The Web Designing Competition challenges participants to create attractive and user-friendly websites while showcasing their creativity, design skills, and knowledge of web technologies.
- **Rules and Regulations:**
  1. Students aged **11 - 19** can participate in the competition.
  2. The theme of the competition is **"Cyber Verse - The Digital Universe."**
  3. The website must be developed using appropriate web technologies such as **HTML, CSS, JavaScript**, or other suitable tools.
  4. The use of AI-generated content or AI tools is strictly prohibited.
  5. All submitted content must be original and created by the participant. Use of copied content or pre-made projects is strictly prohibited.
  6. Participants **must submit the final project file along with all used files, resources, and source codes.**
  7. **A PDF document containing the concept explanation and three screenshots showing the working process must be submitted along with the project.**
  8. **All required materials must be compressed into a single ZIP folder.**
  9. The zip folder name must include the **name and school of the participant.**
  10. **The deadline for submission is 16th September 2026.**
  11. The ZIP folder must be sent to **roboticsclubsujathavidyalaya@gmail.com** before the deadline.
  12. The competition will be judged based on creativity, design quality, functionality, originality, user experience, and overall presentation.
  13. Any plagiarism, inappropriate content, or violation of the rules will result in **disqualification.**
  14. **The decisions of the judges and organizing committee will be final and binding.**
  15. **More information will be provided after the registration.**

# ONLINE COMPETITIONS

## 8) PHOTO MANIPULATION - (INDIVIDUAL EVENT)

- The Photo Manipulation Competition challenges participants to transform and enhance images using digital editing techniques, creativity, and visual storytelling skills to create unique and impactful artworks.
- **Rules and Regulations:**
  1. Students aged **11 - 19** can participate in the competition.
  2. The artwork must be based on the theme **"A World Beyond Imagination"** and should showcase creativity, imagination, and digital editing skills.
  3. The artwork must be created by the participant. Use of copied designs, pre-made artworks, or previously created projects is strictly prohibited.
  4. The use of AI-generated images, AI editing tools, or AI-created content is not allowed.
  5. Participants **must submit the final artwork along with all original images, resources, and project files used during the editing process.**
  6. **A PDF document containing the concept explanation and three screenshots showing the editing process must be submitted along with the project.**
  7. **All required materials must be compressed into a single ZIP folder before submission.**
  8. **The photo file and the zip folder name must include the name and school of the participant.**
  9. **The deadline for submission is 16th September 2026.**
  10. The ZIP folder must be sent to **[roboticsclubsujathavidyalaya@gmail.com](mailto:roboticsclubsujathavidyalaya@gmail.com)** before the deadline.
  11. The artwork will be evaluated based on creativity, originality, editing skills, visual impact, composition, and relevance to the theme.
  12. Any plagiarism, inappropriate content, or unfair practices will result in disqualification.
  13. **The decisions of the judges and organizing committee will be final and binding.**
  14. **More information will be provided after the registration.**
